## Clarity Human Services Updates

### New Feature in Clarity Human Services

Bitfocus is excited to announce new feature updates in Clarity Human Services

that were released on May 17. Key features include: updated labels and auto-messages, date range error checks for services, and updates to Clarity report logic.

In addition, on May 23, several changes to the Data Analysis models were released and have been included at the bottom of this article.

## Spotlight

### End User Participation - It's Importance & Meaning

We understand that End Users can sometimes be overwhelmed with a To Do List that is several pages long, but actively involved end users help us come together and participate in decision making to achieve a common goal. In particular, feedback and suggestions are integral to how we can all work together and improve HMIS.

### [GNRL-405] CE Assessing Staff Report

Do you ever want to know what assessments have been provided and by whom - and has the staff person administering the assessment completed the VI-SPDAT training? Furthermore, do you want to make sure these assessments have been referred to the Community Queue (CQ)? The [\[GNRL-405\] CE Assessing Staff Report](#) is a great report that helps you determine this.
