Create More Housing Connections With MyConnectSV

MyConnectSV is a secure website that allows your service participants to be more hands-on in their housing journey and helps you provide outstanding care.

Key Features of MyConnectSV

Each of these features is participant-initiated, and participants have the control to use them independently as they progress toward housing.

Document Upload and Signing

Participants can quickly upload and sign documents in the portal, saving valuable time and energy (no matter where they are in their housing journey!).

Location Sharing

If they'd like to, participants can drop a pin to let you know where they're staying so you have no trouble finding them when needs arise.

Information Management

MyConnectSV lets participants update their contact information, keep track of upcoming appointments, and access their documents all in one place.

Seamless Messaging

You can securely message a participant — or reach out to multiple participants at once — using MyConnectSV's convenient messaging feature.

Resource Directory

MyConnectSV maintains an up-to-date list of resources to help participants find food, clothing, medical support, pet care, and more.

Data Protection

MyConnectSV safeguards participants' personal information and location data, preserving the trust you've carefully built with them.

MyConnectSV

Easy to Learn

MyConnectSV is designed to be user-friendly. A simple, 40-minute training session is all you need to get acquainted with the website — then you're ready to rock n' roll!

Easy to Share

To sign up, participants need a phone, tablet or computer, internet access, and an email address. You can find resources to help participants with MyConnectSV at the OSH website (myconnectsv.org).

Let's Get Started

To get started with MyConnectSV, simply scan the QR code below or go to **scc.bitfocus.com/myconnectsv** to learn more!
